To whom it may concern,

On Dec 30, 2012 at 2.00am on a Sunday night, PMP Rentals had a water line burst in one of our townhouses. The leak quickly flooded 3 units. Taylor Restoration was on the scene in a matter of an hour. The drying equipment was brought in, furniture moved, and the situation was under control by 4.30am.

Our tenants were pleased with the quick response, and the damage was minimized. Taylor Restoration completed the repairs to all 3 units within weeks.

We are pleased with the work and would recommend Taylor Restoration and the crew. Please feel free to contact me if you wish.
